CENTRALIA HDW. COMPANY.

THE DUNBAR COMPANY.

Were Greeted by a Large Crowd on Thursday Evening.

The opera house was filled to overflowing on Thursday evening when the curtain rose for the entertainment of the Dunbar company, and it there was anybody that was disappointed by the quality or quantity of the music furnished the have not been heard from up to the present time. Every number on the program was enjoyed time and again and while they responded repeatedly there is little question but what they would have been still going at the present time had the audience been allowed to have their own way in the matter.

The numbers rendered by the male quartet were well chosen and rendered in a manner that was very pleasing. Among the best of these selections were "Annabel Lee" and "The Lost Chord." The bell ringing was also very nice and the manner in which they handled the pieces they played was truly marvelous to the uninitiated. While the bells are something new, there is a peculiar quality in their tone that always charms the listener. The music on the cello by Ralph Dunbar was exceptionally good and was thoroughly enjoyed by all. Taken altogether the company was one of more than ordinary ability and was the best of the series that has been presented up to the present time.

Skates Turn the Ice.

Roy Pelletier had a narrow escape from drowning on Saturday. He was skating near the Wood block and sliding onto a thin place where the current had worn away the ice he went thru into the water. He clung to the edge of the ice and called lustily for help, and A. J. Friend and another citizen responded to the cry and pulled the little fellow from his precarious position. The hole he went into was very small, and had he gone beneath the surface even once, there is no doubt but what he would have been drowned. Children who go skating should be more careful where they venture as they may not always be lucky enough to pick out a spot where they can be pulled out so easily.

Death of Nelson Laramie.

Nelson Laramie, one of the old residents of Grand Rapids, died very suddenly at his home on French street on Saturday evening, cause of death being heart failure. Deceased was 75 years old and had been a resident of this city for forty-two years.

On the day of Mr. Laramie's death he was apparently in fairly good health, and sat down to supper the same as usual. Upon getting up from the table he lighted his pipe and went into the sitting room where he sat down. An instant afterward Mrs. Laramie heard him make a sharp exclamation, and when she went into the room she found him dead in his chair. Medical assistance was summoned, but it was evident that his life had gone almost instantly and that nothing could be done for him.

Mr. Laramie was born in St. Louis on the 12th day of December, 1829, and was consequently 75 years and 12 days of age. After growing to manhood he went to California, but some forty-two years ago came to Grand Rapids where he has since resided. For a number of years after coming here he engaged in the mercantile business. The funeral was held on Monday from the family home on French street.

For Rural Patrons.

All patrons of rural delivery routes should bear in mind that the roads which are parts of rural mail routes must be kept open at all times and that each patron must remove the snow at the point where his mail box is located. If this is neglected, the carriers are not obliged to deliver or take up mail. In this connection it may not be amiss to refer to another important ruling of the post office department. This is that, where unopened letters are placed in the box with money for the necessary postage thereon, the money must be placed in paper. If this is neglected, the carriers are not obliged to take the letters. Every patron of rural deliveries should keep stamps in the house and affix the proper amount of postage to letters before mailing. This would be more agreeable to the carrier, whose duties are very exacting at the best. People on rural routes should do everything they can to facilitate the work of the carrier.

Making Patent Saw Stops.
George F. Krieger has recently perfected a saw stop which he has applied for a patent on, and which promises to become an article of general use in box factories, and other places where large quantities of lumber are sawed up into equal lengths. The device is arranged with a number of stops on a rod, which may be set at any distance from the saw, and by operating a lever any one of the stops is brought into service in less than a second.

One of the contrivances has been in use at the plant of the Badger Box and Lumber company for some time past, and during an interview with J. A. Thompson that gentleman stated that it worked to perfection, and that there was little doubt but it would come into general use if the workings of the contrivance could be shown to manufacturers.

Got Thirty Days.
Albert Boettcher was brought before Justice Brown on Tuesday on a charge of being drunk and disorderly and was sentenced to 30 days in the county jail. Boettcher got a jug Christmas morning and drove his family out of the house, and during the celebration some of them were bruised considerably. Officer Gibson was telephoned for and when he arrived on the scene he found Boettcher was having things all his own way. He then started to give the officer a taste of the same medicine, but evidently misjudged his man, for he soon found himself in the cooler.

Mrs. Boettcher stated that her husband had drunk a quart of whiskey that morning, but the man himself said that he had imbibed only a glass and a half of liquor and that he was simply clauding his family because they had not given him any Christmas present. Thirty days will give him ample time to think the matter over.

18,187,918 School Children.
More than 16,000,000 pupils, or 80.04 per cent of the entire population, were enrolled in the common schools of the country in the fiscal year ended June 30, 1904. The total school enrollment for the year, including public and private, elementary, secondary and higher education, was 17,530,478 pupils, and to this there should be an addition made for evening schools, business schools, private kindergartens, Indian schools, State schools for defectives, orphans, etc., 618,440, making a grand total of 18,187,918.

These figures are taken from the annual report of the United States Commissioner of Education. In 1870 the number of pupils enrolled in common schools was 6,871,522, the same being 17.82 per cent of the population. In 1880 the percentage enrolled had increased somewhat, being 19.47 per cent of the population. In 1890 the percentage of the total population was somewhat in excess of the present rate.

The average daily attendance for 1903 was 11,054,502, the same being 69.2 per cent of the total number enrolled. This is the largest average attendance on the number enrolled ever reported in the United States. It was only 69.3 per cent in 1870.

Women are rapidly supplanting men as school teachers. Male teachers formed nearly 39 per cent of the entire number in 1870, and nearly 43 per cent in 1903.

The average monthly wages of teachers for 1903 was \$40.08 for males and \$40.61 for females, a slight increase over the previous year.

According to an estimate of the report the total amount of schooling given to the average of population had risen from 82 days in 1890 to 1,034 days in 1903.

New Observation Cars
Rah for the Chicago, Milwaukee & St. Paul Railway. It has advanced, at one leap, fifty years to the lead, by putting on observation cars which have compartments for women.

Ordinarily a woman is pretty much of an intruder in an observation car, when she has the nerve to fight her way through the tobacco smoke and timidly pick out a seat which isn't occupied by the feet of some imperial male being.

There is no doubt of it, the most effective answer to the man who claims America to be a paradise for cavalry would be to dress him up as a woman and make him spend two days in an American railway coach. The custom of providing 10x10 compartments for men to smoke in and 4x4 closets for women to dress in, three at a time, is a regular airbrake on the progress of civilization.

The Chicago, Milwaukee & St. Paul Railway ought to be given a medal.—Nonpareil, Council Bluffs, Ia., December 9, 1904.

At the conclusion of the program Miss Rood presented to the public library of this city a set of five volumes of Grove's Musical Dictionary, a work that has become a standard of musical reference. F. J. Wood, representing the library board, received the gift and said a few appropriate words of thanks.

Pure Seed Special Train.
The Chicago & Northwestern Ry. is planning a novel venture in a "pure seed special" train, which will traverse company lines in South Dakota, Minnesota, Wisconsin and other states this winter. The company will run a special train carrying Prof. Wilson and Wheeler of the South Dakota Agricultural school, and A. C. Johnson and M. E. Greider over the various lines, with stops at every village and every station. The grain experts will conduct brief lectures and will disseminate brief information to farmers, who call at the train, with reference to the care and use of seed grain, with a view of teaching the agriculturists of the state how to grow larger crops and how to utilize the full productive value of the seed.

The experts say that much seed wheat is planted, which, at the time of planting, is either wholly dead or so weak that it dies with the first adverse condition. This seriously limits the productivity of given amount of seed grain. Prof. Wilson and Wheeler will tell farmers how dead seed may be avoided and how seed may be cared for in such manner as to preserve its value and increase its efficiency 20 per cent.

The instruction will be free to the farmers, and meetings will be held at three or four points in every county which the Northwestern reaches. It is stated that the Chicago, Milwaukee & St. Paul will immediately offer the Agricultural College a second special to be used in spreading the pure seed gospel in a territory it traverses, much of which the officials on the Northwestern's special will not be able to cover.

Was Only a Horse Trade.

Negro Gets One Year.

GIVEN THREE YEARS.

E. O. Voyer Sentenced Saturday for Uttering Forged Paper.

E. O. Voyer, whose case has been before the circuit court at Wausau during last week, was sentenced to three years in Wausau on Saturday by Judge Silverthorn. When the jury brought in a verdict of guilty, a motion was made for a new trial, and this motion was refused, but the motion was denied by the judge, and the judge then pronounced his sentence of three years. The Wausau Record has the following to say concerning the case:

The jury in the case of State vs. E. O. Voyer after thirty hours deliberation, returned a verdict of guilty when the court opened this morning. The verdict was arrived at only after long deliberation. The attorney of Voyer was as to the question of intent upon the part of the defendant to defraud the State Bank of Wausau, when the worthless papers were uttered. The jury came into court three times yesterday for additional instructions. During the latter part of the day the jury stood in for conviction and three for acquittal. When the verdict was read, District Attorney Gouch moved that the defendant be delivered into the custody of the sheriff and gave notice that at 2 o'clock this afternoon he would move for judgment and sentence on the verdict.

At the session this afternoon a request of Attorney W. E. Woschen, attorney for Mr. Voyer, for time to perfect his motion for a new trial was granted and it will doubtless come up for disposal next Saturday. If the motion is then denied District Attorney Gouch will move for judgment upon the verdict and sentence will doubtless be pronounced.

A touching incident of this trial has been the devotion of Mrs. Voyer to her husband. Through all the time it has been in progress she occupied a seat near the front and followed the evidence closely. She at no time lost faith in his innocence and when the verdict was read, broke down and wept, sobbing as if her heart would break. When Mr. Voyer was led from the room by Sheriff Chellis, Mrs. Voyer followed to the lawyer's room adjoining and the final parting brought tears to the eyes of the officers and those who witnessed Mrs. Voyer's grief.

Business Was Good.

A majority of the merchants in this city report a fairly good holiday trade. There was not the remarkable after goods that some of the merchants had apparently figured on, still there was enough of this sort of trade to please most of them. The general report was that many were buying only useful presents this year, something that was of the nature of wearing apparel or furniture, which made the trade lighter on smaller things.

Election Law Violated.

After January 1st Calumet counties may have no legally elected register of deeds, clerk of court, district attorney, sheriff or member of assembly. By failing to comply with section 31, revised statutes of Wisconsin, which provides that candidate's name must appear in full on the ballot to make his election legal, the republic can candidates for the offices named may have laid themselves liable to removal.

Under the law the retiring donors are entitled to institute proceedings to have their successors ousted, but whether such action will be taken is not known.

Firemen's Dance.

The west side fire company promises the young people a good time at their dance tomorrow evening. They are figuring on first class music and as they generally have a large crowd, there is no reason why there should not be a merry time for all.

Railway Blocked.

The Northwestern line that runs into this city was quite badly blocked with the snow on Tuesday. There was one freight stuck at Spring and another near Kellner, so that traffic was completely stopped for a time. The passenger trains were also late that day, it being impossible to make the schedule with the amount of snow that was falling.

Bound Over to Circuit Court.

Ernest Shindler had his hearing before Justice Cooper on Thursday and the evidence submitted by the prosecution was deemed sufficient to bind him over to the circuit court. The charge against Shindler is attempted rape.
